Dear Dr. Farid Oneza Tanveer,

It gives me immense pleasure to inform you that our research proposal on "Digitising the Periphery: Co-producing a toolkit for digital democracy and inclusive urbanisation" [with Professor Ayona Datta, Department of Geography, University College London, UK, as Principal Investigator (PI), and I, undersigned, as Co-PI] has been approved by the British Academy (BA), UK, for funding. This is a prestigious research award. The duration of the project is for two years, 1 March 2021 to 28 February 2023.

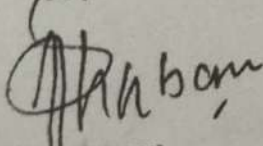

We would like to thank you very much for becoming our local partner in the research. We know that Aqsa Education Society's Aqsa Women's Degree College, Bhiwandi, has enormous potential to contribute to the local research and development and that is very much reflected in the philanthropic approach of the organization to impart higher education to the women of the disadvantaged groups of society.

We also understand that Bhiwandi is one of the towns with massive development deficit and participation of women in democratic process can help in deepening the democracy and overcoming the issues related to the ineffective governance process. Digital technologies can be of immense help both in deepening democracy and promoting good governance.

We are very hopeful that your participation and experience will help us in designing the toolkits to promote and strengthen digital democracy and urbanization.

We would like to extend our thanks to you for making this partnership possible.

Thanking you.
